

Flipgrid

Video Discussion Tool

[Flipgrid](#) is a video discussion tool with capabilities for sharing student responses through video. Flipgrid One is the free version of Flipgrid, offering the use of a single grid to incorporate the Flipgrid experience. Single grids allow users to include unlimited topics and student responses. This version also provides security settings, including password protection. Students may access your Flipgrid using the access code provided when sharing your topic.

In the Classroom (Grades K–12)

- Create prompts for students to respond to about anything and everything.
- Challenge students to reflect on their learning at the end of a unit, research project, or literature circle.
- For professional use, create a topic for peers to discuss. Ideas may include discussing concerns with implementing new technology or curriculum. Have fellow teachers share articles of interest from professional journals.
- Use Flipgrid One to implement a book talk on a topic of interest.
- Use Flipgrid as follow up for a flipped assignment. Ask students to explain what they understand and/or still don't understand about a concept. You can review the responses before the next day's class.
- Use it as an exit slip before students leave class or as a warm-up at the beginning of class (what do they remember about the lesson taught yesterday).

This site has the following features:

- Parent permission is advised before posting student work created using this tool.
- Requires registration/log-in (WITH email).
- Premium version (not free) includes additional features and storage.
- Products can be embedded.
- Products can be shared by URL.
- Multiple users can collaborate on the same project.
- Includes teacher tools for registering and/or monitoring students.

Getting Started

1. Go to <https://auth.flipgrid.com/signup> and create a free account.
2. Watch the quick overview video: <https://vimeo.com/229139609>.
